

AQUA GENIE[®]

AN AUTOMATIC, CAREFREE WAY
TO KEEP POOLS CLEAN AND HEALTHY

Explore the Possibilities

YOU'VE NEVER HAD A FRIEND LIKE

WISH #1

I WISH I DIDN'T HAVE TO
SPEND SO MUCH TIME
CLEANING MY POOL.

GRANTED!

You can put your swimming pool nets back in the shed. The Aqua Genie uses a pressure chamber to drive pool water downward after it has been filtered. This constant current of clean water prevents dirt and debris from settling on the bottom of the pool, while at the same time forcing leaves, insects, pollen, dirt and oils directly into the skimmer. **As an added bonus, the constant water circulation means that your pool water will remain at a constant temperature from the surface of the pool straight to the bottom.**

The Aqua Genie has revolutionized vacuuming. Imagine a system that allows you to vacuum less often. Then imagine vacuuming without even getting your hands wet! This wish becomes reality by attaching your vacuum hose to the Aqua Genie vacuum plate and dropping it over the leaf basket. It gets even better. Because the debris will then be trapped in the leaf basket, **there will be no need for frequent filter shut-downs to clean the trap.** And because our leaf baskets are designed to be oversized and anti-clogging, they never starve the pump, even at lower water levels.

WISH #2

I WISH CHEMICAL
TREATMENT COULD
BE QUICK AND EFFORTLESS.

GRANTED!

The Aqua Genie makes chlorination simple. Stabilized chlorine pellets are placed in a removable chlorine canister. As water is filtered through this canister, an exact amount of chlorine is distributed throughout the pool. The Aqua Genie's canister system combined with its water circulation technology ensures healthy, crystal-clear water without over-chlorination. This canister is also refillable, **meaning you never have to touch the chemicals.**

AQUA GENIE!

The Aqua Genie is a complete pool maintenance system that provides maximum cleaning benefits previously neglected by out-of-date skimmer systems. By using the Aqua Genie you'll reduce your pool maintenance and cleaning time by 67%. So whether you've purchased your home pool for therapeutic, fitness, or recreational reasons, the Aqua Genie will allow you to spend as much time as possible enjoying it. And with a twenty year track record of performance excellence, you can rest assured that the Aqua Genie is the most reliable and comprehensive method of cleaning your swimming pool. That makes the Aqua Genie the best friend your pool has ever had.

WISH #3

I WISH POOL CLEANING SYSTEMS WERE EASY TO INSTALL AND AFFORDABLE.

GRANTED!

The Aqua Genie's two-pipe installation system is as easy as it gets. One pipe runs from the Genie to the filter and another pipe returns from the filter to the Aqua Genie. This amazingly uncomplicated design means installation is easy and less expensive. The Aqua Genie can also save you money in other ways. Because its circulation system pulls the most contaminated water into the filter, fewer gallons of water need to be cleaned. This efficiency allows lower-power pumps to be used, which can significantly reduce your electrical bills.

FRIENDS OF AQUA GENIE SAY...

"Over the past 23 years, Galati Pools has installed over 500 Aqua Genie skimmer-feeder systems. During those years we have never had a system failure...In our opinion, the Aqua Genie is ten times more effective than any other skimmer-feeder on the market. The powerful jet of water keeps the water circulating, which means you have a cleaner pool longer. And when you do have to vacuum, you'll notice the oversized leaf basket on the Aqua Genie makes it easier."

"This skimmer-feeder reduces the amount of time you spend cleaning your pool by two-thirds, and with the automatic chlorinator system, it's even easier to keep your pool more healthful."

"Since the Aqua Genie pulls debris off the top and returns high pressure water downward, you'll cut your maintenance by 50 percent, and as long as the system is running, you'll never have to hand-skim your pool...It's without a doubt the finest skimmer-feeder system on the market."

"Aqua Genie is the only system we recommend. We don't want to mess with a pool with a conventional filtration system and haven't for twenty years. We're sold on Aqua Genie and know you will be too once you've tried it."

AQUA GENIE®

Pool builders all across the United States have been installing the Aqua Genie for more than two decades. They know that its innovative design means cleaner pools with less maintenance.
