

Jet-Vac[®]

Automatic Cleaner for Gunite Pools

By Pentair Water Pool and Spa[®]

Simple, efficient with power to spare

For plenty of cleaning power and the assurance of complete pool cleaning, count on Jet-Vac[®]. Powered by a low cost, energy-efficient booster pump, Jet-Vac cleans most pools completely in just 1–3 hours.

- Independent pumping power and a large 4½" intake throat allows Jet-Vac to suck up even large debris with ease—in one test it picked up 27 golf balls!
- With its patented, built-in reverse mode, Jet-Vac moves out of corners and away from obstacles that tend to trap other cleaners. Plus, unlike other cleaners, it continues cleaning, even when in reverse. Just set it and forget it for continuous, fast, uninterrupted cleaning performance.
- Large intake throat and high capacity bag handle large and small debris with ease.

Jet-Vac[®] Automatic Cleaner for Gunite Pools

Large capacity collection bag with ultra-fine mesh that traps and holds even silt-fine particles

Non-tangle hose for easy movement, unattended performance

Bag twists on and off for easy emptying

Nose wheel helps direct Jet-Vac away from tight spots that trap other cleaners

Large debris? No problem!

- Independent energy-efficient booster pump supplies optimum cleaning power... this means your surface skimmer is uninterrupted and works optimally as well.
- 4½" intake throat enables Jet-Vac[®] to remove larger debris with ease.
- Large capacity bag is constructed of tough, durable, long-lasting material and twists on and off for fast, easy emptying.
- Jet-Vac is designed for simplicity and durability, with a minimum of moving parts.
- Quick connectors are used at all important hose junctions for ease of use and a snug fit.
- All materials of construction are the finest available for pool application and deliver long life.
- One-year limited warranty. See warranty for details.

Jet-Vac's nose wheel prevents hang-ups in corners and around steps or ladders – it just keeps cleaning... hands-free
