Kreepy Kadet®

Automatic Inground Pool Cleaner

Keep your inground pool sparkling clean...for less

Kreepy Kadet is our newest automatic pool cleaner for inground pools. It shares several important design features found on the original Kreepy Krauly® automatic cleaner proven in over 1.5 million pools. Kreepy Kadet installs in minutes and uses your pool's existing filtration system to vacuum up dirt and leaves, then sends the debris to your skimmer and/or pump basket where it belongs. In addition, Kreepy Kadet offers unique design features to assure superior performance and reliability for years to come.

Kreepy Kadet®

Automatic Inground Pool Cleaner

Kreepy Kadet also offers important advantages over other pool cleaners:

- Only one moving part for long, dependable service.
- Works when your pool pump works using your pool's existing filtration system.
- Free automatic skimming valve. Regulates water flow to assure proper speed of cleaning, and allows simultaneous skimming of the surface while vacuuming.
- No need for booster pumps, no bags or compartments to empty, wheels or gears to jam, or diaphragms to replace.
- Vacuums and cleans your pool from walls to floor.
- Provides true random pattern coverage to help eliminate missed spots.
- No submerged electrical cords so it's completely safe for swimmers.

Ask your Pool Professional about Pentair's comfort and convenience options to add a whole new dimension to your pool living:

- ★ **automatic sanitizers**
- ★ **automated controls**
- ★ **heaters**
- ★ **automatic cleaners**
- ★ **automated color lighting**
