FOR IN-GROUND AND ABOVEGROUND POOLS

Reduce chlorine use to just 0.5 ppm in your in-ground or aboveground pool!

With Nature² Express™ you can experience a revolutionary approach to sanitizing your pool that gives you the clearest water imaginable. The patented Nature² System* uses minerals to destroy bacteria and algae. The Nature² Express Sanitizer installs in your pool's return line. All you have to do is activate the cartridge and let it do the rest for six months. Then, just sit back and start enjoying the most crystal clear pool water in your neighborhood.

Using a Nature² sanitizer means you can significantly reduce the use of harsh chemicals like chlorine in your pool. And continuous use of Nature² in your pool means a more consistent pH balance. Nature² reduces the potential for stinging eyes, skin irritation and unpleasant odors.

Maintaining a pool with Nature² is much simpler than using traditional chemical treatments. The Nature² sanitizer works automatically and requires no electricity. Pool owners who have switched from chemical programs happily report that they are now spending considerably less time maintaining their pools with Nature². This means more time for you to enjoy your pool and its fresh, crystal clear water.
