Sensation 52

*Seaspray*

# Our Innovation to Your Reality.

A true radius shape that is proportionally balanced with the pool frame in size, style, fit, and finish...

A traditional swimming pool "top cap" is replaced, on the Sensation pool, with a joint cover that is installed "into" the pool frame. The result is that this part becomes an architectural high-light rather than a clumsy cap.

Sweeping Tru-Radius top rails and gently arcing uprights define the Sensation pool frame. The frame parts are proportionally balanced in size, style, fit, and finish. Every detail, texture, joint, and curve has been look at carefully and designed to enhance the ownership experience.

*The Sensation pool features a beautiful Dunes wall that is color coordinated with the natural pool frame colors. Our designers carefully selected a color palette that would blend into, and accent your backyard. The entire ensemble is a delight to the eyes...a visual Sensation!*

Computers are now able to model the extreme stress that an above ground pool is subjected to from water pressure, ultra-violet sunlight, wintertime sub-zero temperatures, and extreme summer heat. Computer created virtual 3D pools show us how the pools react. Advanced computer programs perform finite element analysis on the pool, showing the areas that potentially have the most problems. We then select the right materials and design each part to withstand the stress it will be subjected to over a lifetime of use. The result is a pool that will last for years, trouble free, maintenance free.

The Sensation frame parts are manufactured with the injection molding process. This process allows the Sensation frame to be re-enforced with ribbing on the under side of the pool frame skin. The ribbing is increased in depth, thickness, and quantity in the areas of the pool frame that computer models and experience have taught us it is needed most.

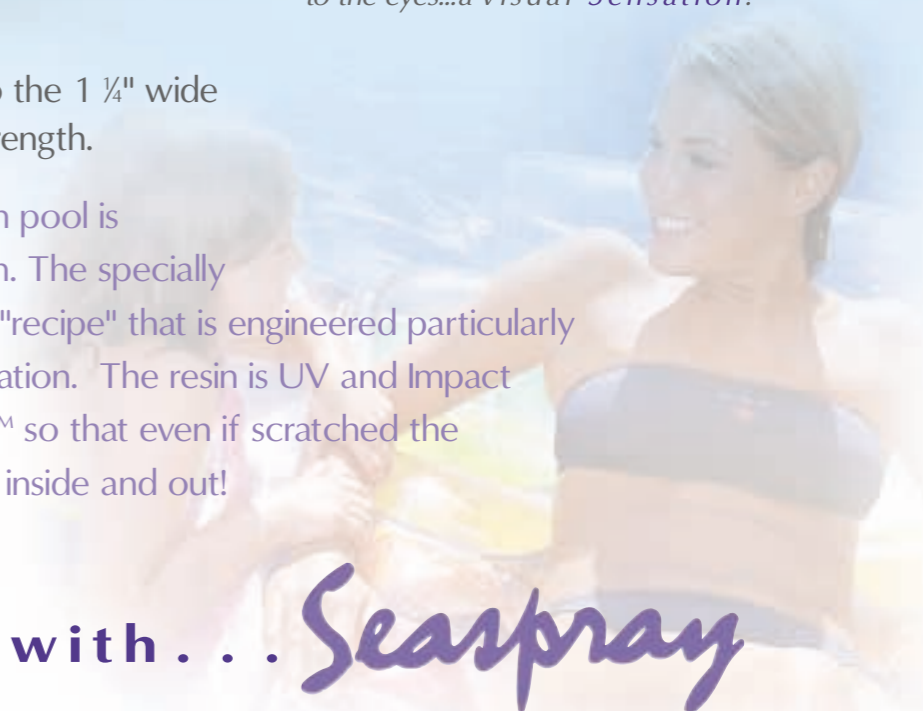

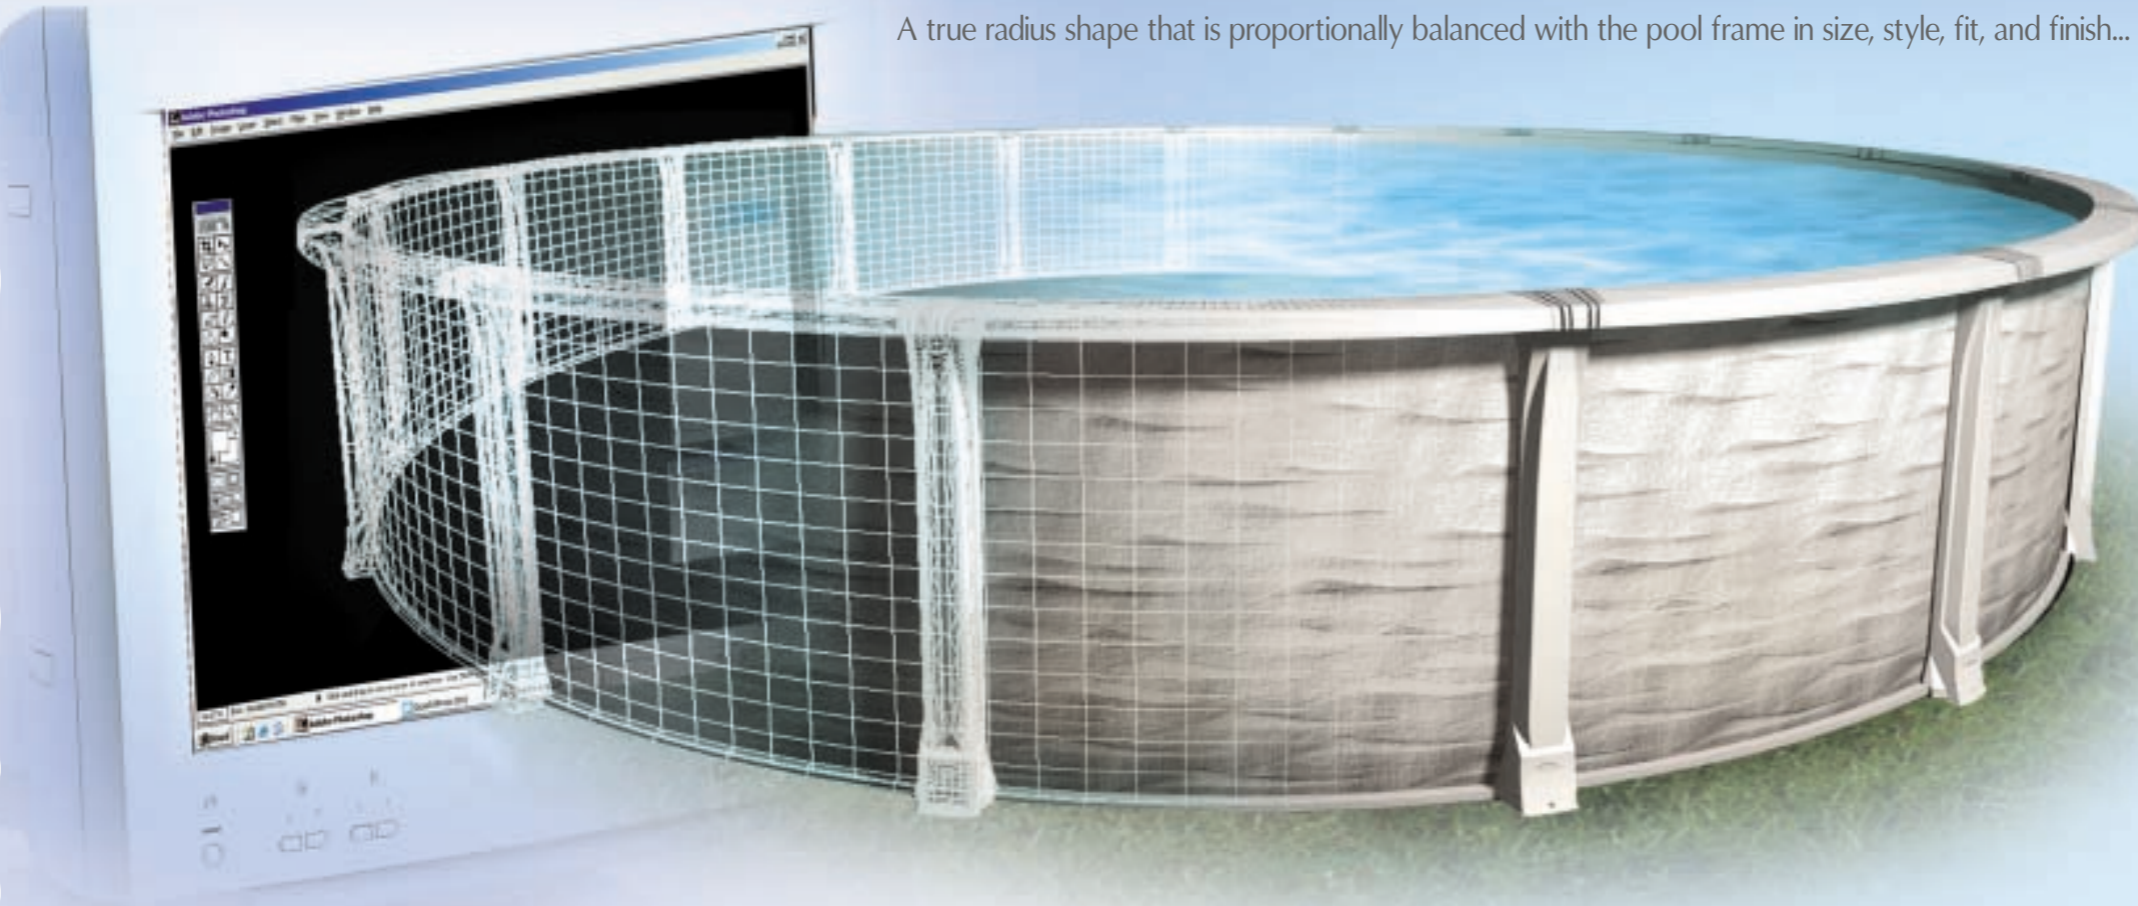

The bottom plate is integrated into the 1 ¼" wide resin bottom rail for greater rim strength.

Every frame part of the Sensation pool is made from injection molded resin. The specially formulated resin is made using a "recipe" that is engineered particularly for an above ground pool application. The resin is UV and Impact resistant. The resin is Color-Thru™ so that even if scratched the frame parts have the same color inside and out!

Sensation 52

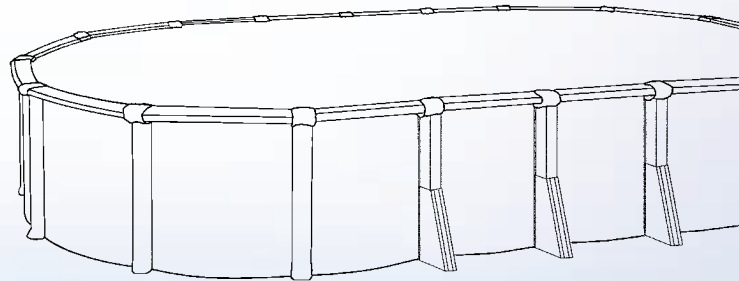

# Sensation 52

Seaspray knows the backyard is becoming the focus of summer entertainment. The Sensation is more than a swimming pool...it is emotion.. it is pride in your home... it is fun with style.The Sensation combines the features of injection molded resin with design elements never seen before in an affordable backyard swimming pool. True Radius top seats and higher density resin are among the most distinctive advantages to this Seaspray Pool.

The Sensation pool comes standard with a Wide-Mouth skimmer system for superior skimming action and a cleaner pool. The Seaspray Sensation is by far the better choice.

The Sensation features a buttress free oval design that uses up less space in your backyard. It is both efficient, and attractive.

	Size
ROUND	15' x 52"
	18' x 52"
	24' x 52"
	27' x 52"
	30' x 52"
OVAL	15' x 28' x 52"
	15' x 33' x 52"

Sizes are subject to availability.
