

CONGRATULATIONS! You are the proud owner of a new Ledge Lounger™ product. Below are some tips about placement and care. After the Lounger is positioned just right, don't forget to send us a picture! If you have any questions, feel free to contact us: info@ledgeloungers.com, or visit us: LEDGELOUNGERS.COM.

LEDGE LOUNGER™

Submerge your Ledge Lounger™ Chaise and/or Table in the pool and fill completely with water. Try to remove all the air bubbles.

Once your Ledge Lounger™ Chaise and/or Table is filled with water, pull it back onto the ledge in the desired position.

PLACEMENT

If your pool ledge is deeper than 9 inches, or permanent positioning is desired, plug Ledge Lounger™ Chaise and/or Table after submerging, then pull it onto the ledge in the desired position. If you still find the Ledge Lounger™ to be buoyant, fill it completely with sand and plug the holes then place in the desired position. A plastic or rubber 1.25" plug can be found at your local hardware store, or email us: Info@ledgeloungers.com.

CARE

To maintain the beauty of your Ledge Lounger™, Chaise and/or Table use Armor-All™ and apply with a soft cloth. To remove waterline scale clean with CLR or an appropriate chemical remover recommended by your local chemical supplier.

We only use the best fabrics at Ledge Lounger™ to assure you the longest lasting pillow possible in the harsh pool environment. This is why we chose Sunbrella™ Marine fabrics. Visit the Sunbrella™ Website (www.Sunbrella.com) page under the "How To" tab, see "Care and Cleaning" - "Marine" for fabric maintenance information.
