

Installation Instructions Addendum

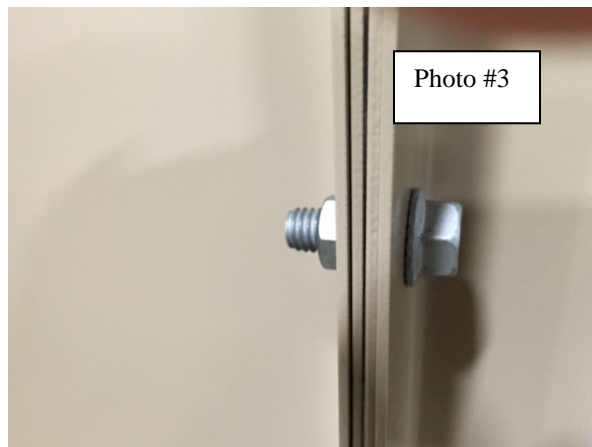

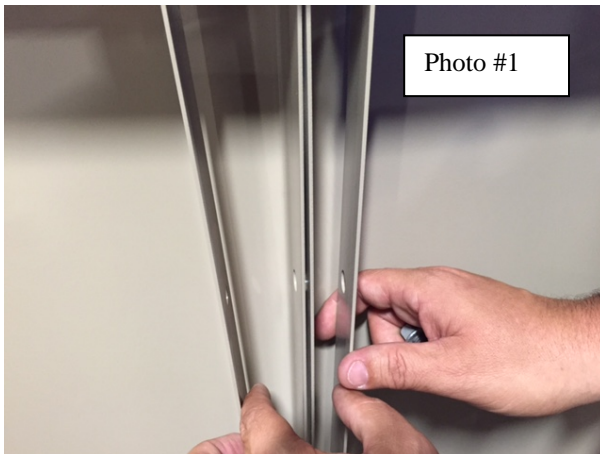

For Ultimate Pools with walk-in stairs

In order to reinforce the structural integrity on Ultimate Pools with Walk-In stairs, we have established a “stair buttress support kit” to be shipped with every 5-tread radius stair.

Each assembly consist of two (pre punched) “A” frame buttress and two flange washers (see photo #1).

The hole on the flange washer is off-center so make sure that the hole is directed toward the pool wall (see Photo #2).

The (see Photo #3).
